NOTICE  
OR  
PLAN OF OPERATIONS

(For Operations Proposed Under the 43 CFR 3809 Regulations)

Instructions to Claimant/Operator: Circle "Notice" above if operations within the project area propose to disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if the proposed disturbance will exceed five (5) acres during the calendar year or if your operations are proposed in an area listed in 3809.1-4(b). Complete the form in as much detail as possible. Use maps or sketches where appropriate (maps or sketches are required for submitted plans of operations and are recommended, but not required, for submitted notices). A review of 43 CFR 3809 Regulations should be conducted prior to completion of this form and submission to the appropriate BLM office.

Claimant Information:

<u>Name</u>	<u>Mailing Address</u>	<u>Telephone</u>
Richard Haggard	346 N 300 E Lehi, UT 84043	801-768-9021

Operator Information: (If different than claimant)

<u>Name</u>	<u>Mailing Address</u>	<u>Telephone</u>
-------------	------------------------	------------------

Claim Information: (If activities are proposed on BLM administered lands where no claims have been located, describe the area by Township, Range, and Section).

<u>Claim Name</u>	<u>BLM Serial #</u>	<u>Claim Type (Lode, Millsite, etc.)</u>
Grant #1	UMC 263241	Lode
Grant #2	UMC 263242	Lode

Proposed Operations: Describe the entire proposed operation, including all surface disturbing activities (road construction, drilling, trenching, backhoe and bulldozer exploration, mining, waste disposal, etc.). List all mechanized earth moving equipment to be used during the operation and state if any explosives are to be utilized. Describe and furnish a map or sketch, when applicable, showing existing surface disturbances, structures, facilities, etc., and the location and size of areas where surface disturbances are proposed, including existing and/or proposed routes of access. Calculate the total acreage proposed for disturbance (1 AC. = 43,560 sq. ft.).

Date Operations are Proposed to Commence as Outlined in this Submittal - (Month, Day, Year):

Oct 30 92

Access Routes (Existing and Proposed)

Existing Road in Sections 10 + 15

Existing Disturbance and Structures

~~Exploratory Drilling~~ - 1" holes

Proposed Operations

Exploratory Drilling - 1" holes  
See Attached sheet.

Proposed Completion Date

11-31-92.

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of non-operation is anticipated.

See Attached sheet.

I hereby declare that I, or persons I have authorized to do so, will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Richard H. Hagan  
Signature of Claimant or Operator

Date

Notice to Claimants/Operators:

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 days before commencing operations. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a plan and will notify the claimant/operator of the status of the plan within 30 days of receipt.
2. Approval of a plan of operations does not constitute certification of ownership to any person named as claimant/operator herein, nor does approval constitute recognition of the validity of any mining claims named herein.
3. Information and data submitted and specifically identified by the operator as containing trade secrets or confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately by the BLM and will not be available for public inspection.
4. Failure of an operator to file a notice under 3809.1-3 or a plan of operations under 3809.1-4 will subject the operator, at the discretion of the authorized officer, to being served a notice of non-compliance or enjoined from the continuation of such operations by a court order until such time as a plan or notice is filed with the authorized officer.

October 30, 1992

1. No heavy machinery is to be used for exploratory work.  
A picture of the type of Drill Machinery to be used has been given to Ray Audette and a 1" drill bit will be used in this phase of exploration.
2. During exploration there will be no heavy equipment used.
3. The area to be disturbed will be less than one acre during exploratory drilling.
4. All overburden soils will be reclaimed both those fed threw the trommel and those not fed threw the trommel.
5. All material removed - disturbed from an area will be stockpiled, material will then be replaced to the area from which it was removed.
6. The non-compliance issued on 12-13-91 was discussed with Ray Audette and the items listed have been cleaned up to his satisfaction.
7. Because of the small amount of water needed for drilling, the retention and settling ponds will not be used.  
  
The access road will be used to transport water and the drill machinery to the site during days of drilling.
8. The areas to be used for drill exploration have been staked out and all exploration will take place within the confines of the staked area.
9. All assays will be made available to BLM before any trommel work begins.
10. The particulars of the trommel operation will be addressed in a second notice of operation should assay results indicate a viable placer deposit operation.
11. All surface disturbance within the staked areas will be reclaimed when drilling exploration in that area ceases.
